Management's Discussion & Analysis**Paper Industry**

India is the fastest growing market for paper globally and it presents an exciting scenario; the installed capacity of the industry currently stands at 12.75 million MT p.a. of which writing & printing paper accounts for 4.10 million MT, packaging grades for about 5.9 million MT and newsprint is about 2.5 million MT. The long-term growth drivers i.e. GDP growth rate, purchasing power, increasing population, spread of education and literacy, government initiatives etc which remain intact, will ensure that the Indian paper industry will continue to grow tremendously. In line with the new government and renewed optimism alongwith the 'Make in India' initiative and effort, we believe it will bring a boost to the industrial development and overall growth of the economy. The continued thrust on universal education through 'Sarva Shiksha Abhiyan' and 'Right to Education', the paper consumption in India is likely to cross 20 million MT by 2025. However, growth in Indian Paper Industry during 2014-15 was moderate and is likely to be the same in 2015-16.

Newsprint Industry

The average per capita consumption of Newsprint in India is about 1.8kgs as against the average of 3.5 kgs of Asian countries and a Global average of 9kgs. The newsprint consumption is about 2.64 million MT of which imports are of 1.39 million MT and production of 1.24 million MT. The global newsprint estimates the production of about 37 million MT with consumption of 32 million MT and a surplus of about 5 million MT which is being dumped in countries like India at cheaper rates & thus harming the domestic industry. The domestic industry is compelled to sell its product with landed cost of 'cheaper imports' as benchmark & as a result suffer huge losses. The newsprint industry is likely to grow at 6% p.a. in the next five years and the industry demand is likely to grow to 5.5 million MT by the year 2025. With no major capacity expansion in Newsprint Industry in sight, dynamics of the imported Newsprint in terms of the quality and the landed cost will continue to govern the industry in future.

COMPANY'S PERFORMANCE & OUTLOOK

This has been discussed in length in the Board's Report.

SWOT Analysis**Strengths**

- 1) Strategic location of the plant, good proximity to both market for its finished product and source of its raw material i.e. wastepaper and chemicals.
- 2) Close proximity to Hazira & Magdala ports for import of waste paper and coal and export of finished goods.
- 3) Swing facility on the Paper Machine to produce Newsprint / Writing & Printing grades of paper as the market situation may demand.
- 4) Countrywide customer base and Dealer / Distributor network.
- 5) Customer's appreciation of company's products.
- 6) Sufficient land and other infrastructure available with the Company for future expansion and growth.

Weakness

The Company manufactures its products with 100% recycled fibre, which is perceived a shade below high end products manufactured from virgin pulp. However, company's products both Newsprint Paper and Writing Print Paper are well accepted in the market place due to continuous Research & Development and Technological improvements which have helped the company to improve the quality of its products.

Opportunities

With the increased outlay by Government for growth in the education sector and an equally robust demand for paper, the company can take the advantage of this enormous potential for the paper industry and gain from it. Being an eco-friendly process based on recycling, the Company also can benefit from the increased awareness of global warming among its customers as can be seen from trends in developed countries.

Threats

- 1) The Company imports about 40% of the raw material, which is prone to the foreign exchange fluctuations.
- 2) The Company is susceptible to cyclicity in International newsprint market and the availability & prices of recycled fibre across the globe.
- 3) The wood resources and availability are limited across the country and cost of wood is much higher in India as compared to elsewhere around the world.
- 4) With withdrawal of energy as a core sector status by the Government of India, coal availability has become challenging.

Internal Control Systems & its Adequacy

The company has adequate system of internal controls to safeguard and protect from loss, unauthorized use or disposition of its assets. All the transactions are properly authorized, recorded and reported to the Management. The Company has appointed external firm of Chartered Accountants who carry out Internal Audit throughout the year on regular basis and with a pre-planned audit schedule. Their suggestions and recommendations are reviewed by the Management regularly so as to enhance the quality of Internal Control System. The audit reports are reviewed by the Management and the Audit Committee of the Board from time to time. The company has also implemented Total Productive Maintenance (TPM) process to improve productivity, efficiency in administrative functions and elimination of losses.

Human Resources

The management believes that human resources is fundamental to the success of any organization. Therefore, the Company accords due emphasis and thrust on developing and nurturing its human resource by hiring the right manpower and organizing various training programs to improve their productivity. The Company recruits trainees in various departments and provides them with appropriate training to equip them to take up the responsibilities in the Company. Proper care is also taken for the safety, health and well-being of its employees.

Cautionary Statement

These statements are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. There are a number of factors such as global and domestic demand-supply conditions, finished goods prices, raw materials cost and availability, changes in Government regulations, tax regimes, economic developments within India and other factors such as litigation and industrial relations that could cause actual results or developments to differ materially from those expressed or implied by these forward-looking statements and forecasts. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
