MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A] INDUSTRY STRUCTURE AND DEVELOPMENTS

There are about 750 – 800 paper mills (organized & unorganized sector) in the country with Installed capacity of 20.65 Million tonnes with the domestic demand for all varieties of paper in India is estimated at around 18.60 Million tonnes in FY 2019-20 which is 4% of global demand of 419.70 Million tonnes even though population of 121 crores as per 2011 census is 17% of world population.

Wood based industry accounts for 25% of production while waste paper and agri residue accounts for 58% & 17 % respectively. Capacity-wise industrial Paper accounts for about 53%, Printing & Writing Paper 29%, Speciality Paper 5% and Newsprint 13% of total production.

The demand writing & printing paper accounts for approx. 5.4 Million tonnes, packaging grades for approx. 9.8 Million tonnes and newsprint about 2.5 Million tonnes apart from speciality grade about 0.9 Million tones based on data for FY 2018-19

The estimated turnover of the industry is INR 70,000 crore approximately and its contribution to the exchequer is around INR 5,000 crore. The industry provides employment to more than 0.5 million people directly and 1.5 million people indirectly.

There are about 121 units manufacturing newsprint with installed capacity of 2.6 million tonnes in our country whereas demand of newsprint is estimated at around 2.50 Million tonnes in FY 2018-19 (production 1.10 Million tonnes – Imports 1.40 Million tonnes. The per capita consumption is about 2 kg and it is expected to grow in line with GDP growth which is projected to be 7 %

The global capacity is estimated to 23 million tonnes per annum [down from peak of 32 million tonnes per annum] with surplus capacity due decline in demand caused by trends in advertising, electronic data transmission and storage, and the Internet with adverse effects on the demand for traditional print media Neither the timing nor the extent of those trends can be predicted with certainty. The aging population and declining birth rate also affected demand of newsprint. This sector is to compete with, other forms of media and advertising and electronic data transmission and storage, such as television, electronic readers and websites which has reduced consumption of newsprint.

Some of the leading newsprint manufactures have either closed capacity or converted machines to produce LWC container board etc. The decline in newsprint worldwide is estimated to be 12 % in year 2019.

The consumption of newsprint was 5.1 million tonnes in Europe 2.3 million tones in North America whereas it was 8.4 million tones in Asia and Oceania in year 2019 totaling to 15.8 million tons

B] OPPORTUNITIES & THREATS

The low per capita consumption of paper/paperboard in the country is bound to increase with the growth in the GDP, rising income of middle class, increasing demand for computer stationery and spending by Government on education sector and ban on plastic packaging starting with Gutka manufacturing units. The consumption of newsprint is also expected to raise on lines of GDP growth irrespective of decline worldwide which also appears to have bottomed out.

The Import duty on paper & paper board for ASEAN countries has been reduced from 2.50% to 0% with effect from 01.01.2014 vide notification No.57/2013 dated 31.12.2013 which had implications in terms of cheaper imports . Newsprint is subject to 5 % import duty only which has led to dumping of newsprint by overseas suppliers. Newsprint is subject to 5 % GST wef 1.7.2017

The company has swing facility on one of the machine to manufacturer writing & printing paper as per market conditions.

The industry imports waste paper for sustained production of newsprint and depreciation of rupee against US dollar may lead to increase in input cost.

C] SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The company is operating in a) paper and newsprint segment b) Packaged drinking water but turnover being less than 10 % hence segment wise reporting is not applicable

D] OUTLOOK

India is the fastest growing paper market in the world with expected CAGR of 6 to 7 % due to thrust on education, urbanization and growth in economy. Newsprint sector is also expected to grow in line with GDP growth.

E] RISK & CONCERNS

The Company has derived 97% of revenue from paper business in 2019-20 hence may be affected due to import of newsprint/paper. Further absence of organized collection of waste paper and therefore reliance on imported waste paper may affect it with depreciation of rupee against US dollar. However, plant is located near to Hazira port which gives it advantage over competitors in the segment.

F] INTERNAL CONTYROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate system of internal control to safeguard and protect from loss, unauthorized use or disposition of its assets. All the transactions are properly authorized, recorded and reported to the Management. Future operations of the Company will be subject to developments on COVID-19 front together with stability in the economy which are currently uncertain.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter: Property, Plant & Equipment's/Capital Work in Progress.

We refer note no. 3 to the accompanying Standalone Financial Statements.

The Company has Capitalized Borrowing cost and Other Directly related overheads amounting to ₹ 1267.70 Lakhs. These amounts have been capitalised towards PM I upgradation which is yet to be capitalized as on 31st March 2020 and Water Bottle plant commissioned as on 01st July 2019.

Considering the materiality of the amounts involved, this matter has been identified as a key audit matter for the current year audit.

Our procedures included, but were not limited to the following:

Obtained an understanding of management's control and evaluated design and tested operating effectiveness of controls around identification of indicators for capitalizing the expense under assets in accordance with Ind AS.

Assessed the reasonableness of capitalizing the Interest cost and directly related overheads in accordance with Ind AS 23 and Ind AS 16, until the plant is in location and condition necessary for it to be capable of operating in the manner intended by management.

Based on our procedures, we also considered the adequacy of disclosures in respect of the above in the said notes to the standalone financial statements.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information & according to the explanations give to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

- (c) any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

Lease Liability:

The lease liability is measured at the present value of the lease payments that are not paid. The lease payments are discounted using the incremental borrowing rate of the Company.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
- (c) amounts expected to be payable by the lessee under residual value guarantees;
- (d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Short term lease:

Company has not recognized operating lease accounting and not recognize lease assets and lease liabilities for leases with a lease term of 12 months or less (i.e., short-term leases).

Subsequent measurement & depreciation:

Lessees accrete lease liability to reflect interest and reduce the liability to reflect lease payments made.

The depreciation requirements in Ind AS 16, Property, Plant and Equipment is applied, in depreciating the right-of-use asset, subject to the requirements. If the lease transfers ownership of the underlying asset to the lessee by the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the lessee shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Right-to-use assets are subject to impairment testing under IAS 36 Impairment of Assets.

t. Borrowings:

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost.

The fair value of zero coupon optionally non-convertible debentures is determined using a base interest rate for other bank borrowing. This amount is recorded as a liability on an amortised cost basis until extinguishment on conversion or redemption of debentures. The remainder of the proceed is booked as other income.

The fair value of the liability portion of zero coupon optionally convertible debentures is determined using a market interest rate for an equivalent debenture. This amount is recorded as a liability on an amortised cost basis until extinguishment on conversion or redemption of debentures. The remainder of the proceed is attributable to the equity portion of the compound instrument. This is recognised and included in the shareholders' equity and is not subsequently remeasured.

u. Other Financial Assets:

The Company classifies its financial assets in the following measurement categories:

- (1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit & Loss), and
- (2) Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit & Loss.

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

v. Employee Benefits:

(i) Short-term obligations:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(ii) Other long-term employee benefit obligations:

The liabilities for earned leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit & Loss.

(iii) Post-employment obligations:

The Company operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund & employees' state insurance.

Gratuity obligations:

The liability recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit & Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the Balance Sheet.

Defined Contribution Plans:

Defined Contribution Plans such as Provident Fund and Employees' State Insurance are charged to the Statement of Profit and Loss as incurred. The Company has no further payment obligations once the contributions have been paid.

w. Earnings Per Equity Share:

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

x. Contributed Equity:

Equity Shares are classified as equity:

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

y. Critical Estimates and Judgements:

The preparation of financial statements requires the use of accounting estimates which by definition will seldom equal the actual results. Management also needs to exercise judgment in applying the accounting policies.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV and listed equity instruments are being valued at the closing prices on recognised stock exchange.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

The Company's financial risk management policy is set by the management. Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. The Company manages market risk which evaluates and exercises independent control over the entire process of market risk management. The management recommend risk management objectives and policies, which are approved by Senior Management and the Audit Committee.

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk arises from cash held with banks as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company also hold security deposits for outstanding trade receivables. The history of trade receivables shows a negligible provision for bad and doubtful debts.

b. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

c. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities.

d. Foreign exchange risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

The Company's foreign exchange risk arises from its foreign currency borrowings (primarily in USD). As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues measured in Indian rupees may decrease.

The following table sets forth information relating to foreign currency exposure (other than risk arising from derivatives disclosed below):
